
WILLIAM C. METZGER

EDUCATION

Colorado State University – M.S. Range Science, 1985
Delaware Valley College – B.S. Biology, 1977

SPECIAL COURSES

Groundwater Pollution and Hydrology Course (Princeton Groundwater, Inc.)
40-Hour OSHA Health & Safety Training

EMPLOYMENT HISTORY

Currently from 1992 - Sevee & Maher Engineers, Inc.; Senior Project Scientist
1992 from 1987 – ABB Environmental Services, Inc., Portland Maine; Environmental Scientist

PROFESSIONAL EXPERIENCE

Mr. Metzger has over 20 years of experience in developing and implementing site investigations and remediations for industrial clients in support of environmental compliance. His experience has included soil contamination and groundwater quality assessments, soil remediation projects, Phase I and Phase II environmental site assessments, assisting technical leads in preparation of environmental compliance plans, and environmental sampling and analysis.

Typical projects in areas of expertise include:

- Project Manager for Corrective Action Plan implementation of current groundwater monitoring program at True Textiles, Inc. (formerly InterfaceFABRIC, Inc.) textile mill in Elkin, NC. Responsible for evaluating water quality data, and preparing annual groundwater monitoring reports for Client submission to North Carolina Department of Environment and Natural Resources;
- Management of hazardous and petroleum materials, and site remediation activities for Miller Industries' Inc. textile mill sites in Lisbon and Lewiston, Maine;
- Prepared Voluntary Cleanup Checklist requested of True Textiles, Inc. (formerly InterfaceFABRIC, Inc.) textile mill in Elkin, NC by North Carolina Department of Environment and Natural Resources. Document was used by the State's Inactive Hazardous Sites Branch to determine if remediation oversight at the site qualified for the Registered Environmental Consultant Program;
- Technical Lead for development and implementation of multi-phase soil and sediment site investigation and remediation projects, and a RCRA facility groundwater investigation at InterfaceFLOR in LaGrange, GA. Prepared project reports submitted to Georgia Environmental Protection Division;
- Completed Phase I and Limited Phase II Environmental Site Assessment work for Interface, Inc.;
- Prepared Work Plan for True Textiles, Inc. (formerly InterfaceFABRIC, Inc.) for a proposed site investigation at the Berkshire Weaving, Inc. property in Lancaster, SC, which was required by South Carolina Department of Health and Environmental Control for entering a Voluntary Cleanup Program; and,

- Technical Lead for site investigation at Pioneer Plastics Corporation specialty laminate facility in Auburn, ME, which included management of hazardous materials for proper disposal.
